***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: the closest prior art references of record are the patents to Fowlow and Cain; however, neither teach or suggest the features of claims 15, 36-38, 42, 63-65, 69, 112, and 116-120 of creating a graphical flow program via a display on the screen wherein the first node is operable to invoke the first method of the first object during execution of the graphical data flow program. The references also do not teach or suggest the features of claims 40 and 67 of creating a graphical flow program wherein the graphical flow program comprises a plurality of nodes which visually indicate the functionality of the graphical flow program, wherein the plurality of interconnected nodes are connected by lines which represent flow of data among nodes; wherein the first node is operable to invoke the first method of the first object.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
